

AU Mentor Award 2012

Made a difference to others

This award is given to

Jette Ditlev

for extraordinary commitment to the AU Mentor Program
at Aarhus University (former Aarhus School of Business)

Jette Ditlev has over a period of four years shown great dedication and commitment to supporting and guiding Master's students on their career path.

Mentee statements

"Jette has been talking very passionately about her economy studies from the business school. So passionate that she convinced me – a language and communication student – to study economics in my spare time. It has really opened a lot of doors for me. Thank you, Jette."

"Jette is a competent and poignant mentor, and meetings with her always bring new perspectives. It has helped me to explore new possibilities. Jette's valuable input has for instance helped me find an internship during my studies – something that later paved the way to my first full time job."

Susanne Søs Hejlsvig, Program Manager at AU Mentor

AU Mentors are alumni from Aarhus University

Mentors are guides, advisors and coaches, who voluntarily share their work knowledge to enhance the professional and personal development of their mentee. They provide support and encouragement through counseling and coaching on career related topics. They give feedback and career related information and enhance the mentee's access to various professional resources, opportunities and networks. All elements, which promote the mentee's
